

# Civil engineering pipe

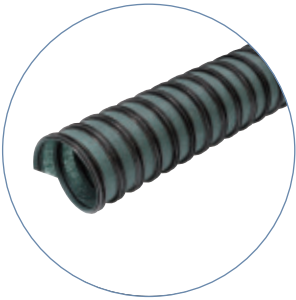

Drainage pipe for underground and underdrain.  
For drainage measures in parks, golf courses, and landfills, we use lightweight and high-strength resin pipes to support civil engineering works for drainage from land reclamation sites, dump sites, and tunnels.

Metal composite HDPE pipe

HDPE pipe

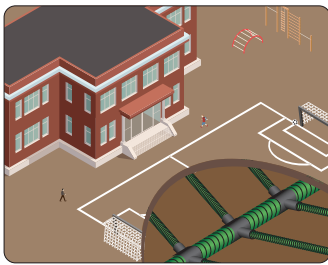

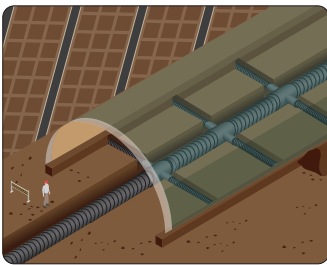

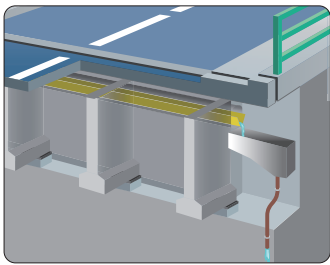

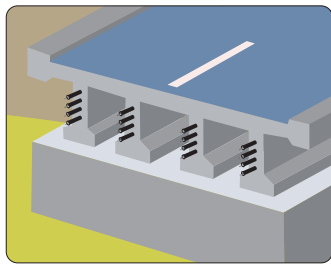

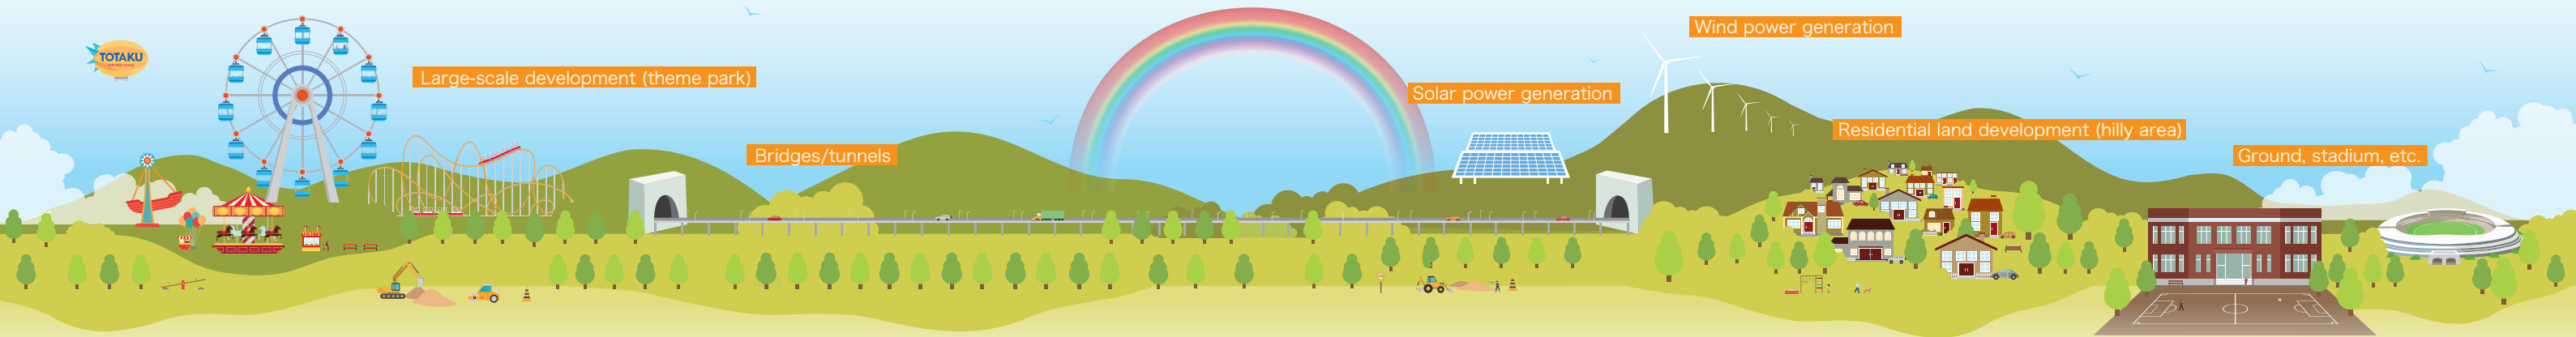

Permeable pipe

Cable duct for PC bridges

Drainage system for bridges

Underground drainage pipes

Prestressing ducts for PC bridges

Simple bridge drainage system

Slope drainage materials

Drainage pipe in tunnel  
(Center drain)

Underground drainage pipes

Ground drainage
